

SFA - HIGH PRESSURE AIR COMPRESSOR FOR LASER CUTTING (16-30 BAR)

Product Description:

Specialized Medium and High-Pressure Air Compressor for Laser Cutting

Key Features:

1. **Heavy-Duty Construction:** Features a specially designed compressor host that ensures stability and energy efficiency.
2. **Enhanced Component Longevity:** Utilizes a water and oil removal device, based on extensive experience in the laser machine industry, to significantly extend the life of lenses and laser heads.
3. **Convenient Installation:** Available with an optional integrated skid-mounted design for straightforward and easy setup.

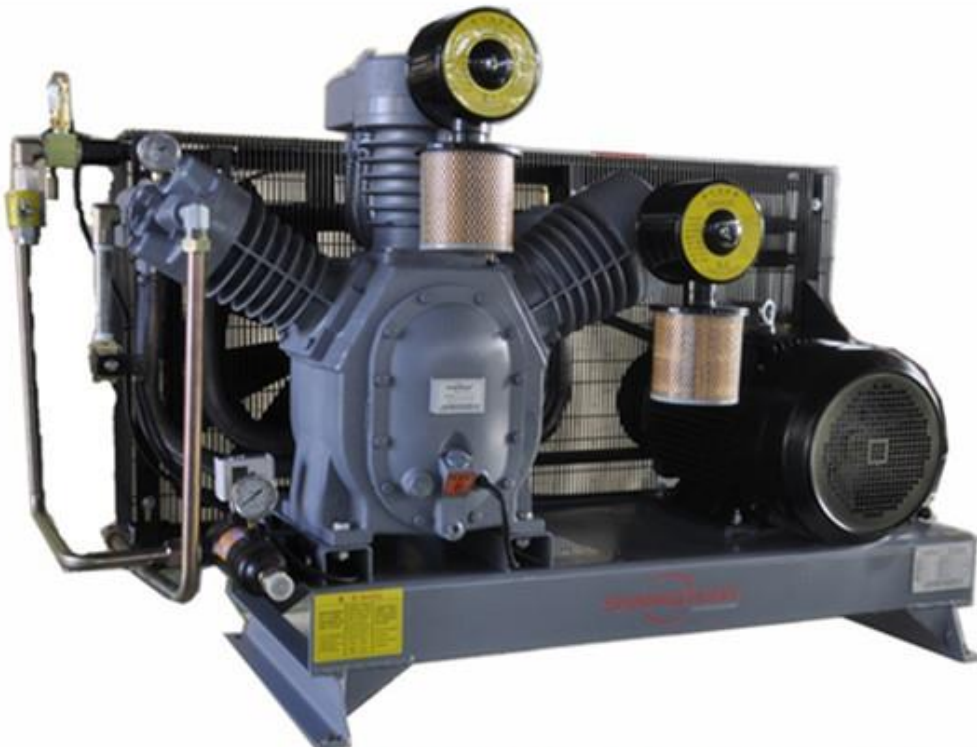

Technical parameters:

Model	Pressure	FAD	Motor
ZVG-15A-16	16bar	0.9m ³ /min	11KW
ZVG-20A-16	16bar	1.2m ³ /min	15KW
ZVG-22A-16	16bar	1.8m ³ /min	22KW
WM-1.0/30-JG	30bar	1.0m ³ /min	11KW
WM-1.2/30-JG	30bar	1.2m ³ /min	15KW
WM-1.6/30-JG	30bar	1.6m ³ /min	18.5KW
SH-2.0/30-JG	30bar	2.0m ³ /min	22KW
2-WM-2.4/30-JG	30bar	2.4m ³ /min	15KW×2
2-WM-3.2/30-JG	30bar	3.2m ³ /min	18.5KW×2
2-SH-4.0/30-JG	30bar	4.0m ³ /min	22KW×2

WM系列 (2.0-3.2m³/min)

WM单机 (1.0-2.0m³/min)
